## Objectives

### Type

The fund is a UCITS investment fund issued in Luxembourg.

### Term

The sub-fund has an indefinite term. The company is entitled to terminate the management of the sub-fund subject to a notice period of six months by way of an announcement in the Official Gazette and furthermore in its annual or half-yearly report. Information on redemption options can be found in the prospectus of the fund.  
This Fund is open-ended.

### Objectives

The objective of the investment policy is to achieve the highest possible growth in value by investing in a diversified portfolio of target flexible allocation funds. The fund is actively managed and not in respect to any benchmark.

### Intended retail investor

Investors should be aware that the Sub-fund's investment program is speculative and entails substantial risk. There can be no assurance that the investment objectives of the Sub-fund, including its portfolio monitoring and diversification goals, will be achieved, and results may vary substantially over time. This Sub-fund may not be appropriate for investors who plan to withdraw their money within 5 years.

The UCITS fund is aimed at private and professional clients as well as eligible counterparties seeking general wealth creation/optimisation with a medium to long-term investment horizon of more than 5 years. This UCITS fund is a product for investors with some basic knowledge of and experience in financial products. Such investors can bear losses (up to the complete loss of the capital invested) and do not attach any importance to capital protection.

## What are the risks and what could I get in return?

### Risk Indicator

The risk indicator assumes you keep the product for 5 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class.

This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact the capacity to pay you.

This product does not include any protection from future market performance so you could lose some or all of your investment.

## Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

<b>Recommended holding period: 5 years</b> <b>Example investment : EUR 10,000</b>		<b>If you exit after 1 year</b>	<b>If you exit after 5 years</b>
<b>Scenarios</b>			
<b>Minimum</b>	There is no minimum guaranteed return. You could lose some or all of your investment.		
<b>Stress</b>	What you might get back after costs	4,420 EUR	3,930 EUR
	Average return each year	-55.8%	-17.0%
<b>Unfavourable</b>	What you might get back after costs	8,580 EUR	9,350 EUR
	Average return each year	-14.2%	-1.3%
<b>Moderate</b>	What you might get back after costs	10,080 EUR	11,430 EUR
	Average return each year	0.8%	2.7%
<b>Favourable</b>	What you might get back after costs	11,710 EUR	12,650 EUR
	Average return each year	17.1%	4.8%

The stress scenario shows what you might get back in extreme market circumstances.

The unfavourable scenario occurred for an investment between 12/2021 and 01/2024.

The moderate scenario occurred for an investment between 07/2017 and 07/2022.

The favourable scenario occurred for an investment between 11/2016 and 11/2021.

## What happens if Vector Asset Management is unable to pay out?

The failure of the company will have no direct effect on your redemption, as the statutory regulation provides that in the event of the insolvency of the financial investment management company, the investment fund will not become part of the assets of the insolvency estate, but will be administered independently.

## What are the costs?

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

### Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10,000 is invested.

	<b>If you exit after 1 year</b>	<b>If you exit after 5 years</b>
<b>Total costs EUR</b>	420 EUR	1,390 EUR
<b>Annual cost impact (*)</b>	4.2%	2.7% each year

(\*)This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 5.4% before costs and 2.7% after costs.

## Composition of Costs
