

## Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

<b>Recommended holding period: 5 years</b> <b>Example investment : EUR 10,000</b>		<b>If you exit after 1 year</b>	<b>If you exit after 5 years</b>
<b>Scenarios</b>			
<b>Minimum</b>	There is no minimum guaranteed return. You could lose some or all of your investment.		
<b>Stress</b>	What you might get back after costs	5,570 EUR	5,530 EUR
	Average return each year	-44.3%	-11.2%
<b>Unfavourable</b>	What you might get back after costs	9,130 EUR	9,790 EUR
	Average return each year	-8.7%	-0.4%
<b>Moderate</b>	What you might get back after costs	10,330 EUR	11,120 EUR
	Average return each year	3.3%	2.1%
<b>Favourable</b>	What you might get back after costs	11,660 EUR	12,630 EUR
	Average return each year	16.6%	4.8%

The stress scenario shows what you might get back in extreme market circumstances.

The unfavourable scenario occurred for an investment between 05/2018 and 05/2023.

The moderate scenario occurred for an investment between 08/2019 and 08/2024.

The favourable scenario occurred for an investment between 03/2020 and 03/2025.

## What happens if Vector Asset Management is unable to pay out?

The failure of the company will have no direct effect on your redemption, as the statutory regulation provides that in the event of the insolvency of the financial investment management company, the investment fund will not become part of the assets of the insolvency estate, but will be administered independently.

## What are the costs?

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

### Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10,000 is invested.

	<b>If you exit after 1 year</b>	<b>If you exit after 5 years</b>
<b>Total costs EUR</b>	220 EUR	1,180 EUR
<b>Annual cost impact (*)</b>	2.2%	2.3% each year

(\*)This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4.4% before costs and 2.1% after costs.

## Composition of Costs

One-off costs upon entry or exit		
<b>Entry costs</b>	0 EUR	0.00% of the amount you pay in when entering this investment
<b>Exit costs</b>	0 EUR	We do not charge an exit fee for this product
Ongoing costs taken each year		
<b>Transaction costs</b>	11 EUR	0.11% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.
<b>Management fees and other administrative or operating costs</b>	210 EUR	2.05% of the value of your investment per year
Incidental costs taken under specific conditions		
<b>Performance fees</b>	0 EUR	20% of the amount by which the performance of the sub-fund's net assets exceeds that of the benchmark index, existing of a combination of 60% MSCI World All Countries index in Euro (Bloomberg code MDWD) + 40% Euro short-term rate (Bloomberg code ESTCINDX), during a fiscal year. The outperformance is measured against a high water mark.
<b>Carried interests</b>	0	The impact of carried interests.

---

## How long should I hold it and can I take money out early?

### Recommended holding period: 5 years.

This product is suitable for at least medium-term investments. Shares in the fund can generally be returned on each valuation day.
