

KEY INVESTOR INFORMATION

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Vector Flexible F, a sub-fund of Vector SICAV **(ISIN: LU1013276040)** **This fund is managed by Vector Asset Management S.A.**

Objectives and Investment Policy

The Fund is a global equity fund that is actively managed on the basis of a set of mathematical valuation models. Throughout a full business cycle, the Fund aims to maximise its alpha while targeting a beta of between 0.5 and 0.7 with the global equity markets - MSCI World All Countries Index (in euro). While the fund strives to have a similar geographical and sector distribution as the benchmark (active weights held at less than 12.5%), a significant part of its investments may not be part of or may have different weightings than the benchmark. Put differently, while the equity part of the portfolio tries to maintain a similar level of risk (ex-ante tracking error below 7%) as the MSCI ACWI the investment manager has the discretion to invest in companies, countries or sectors not included in the benchmark in order to take advantage of specific investment opportunities and generate alpha. Moreover, while the fund tries to maintain a similar equity exposure as its benchmark (60% MSCI ACWI + 40% EONIA) over a full business cycle, the exposure to equity may be very different during any given year. Depending on market conditions, the Fund may invest up to 100% of its assets in cash or money market instruments.

In order to achieve outperformance the Management Company systematically screens global equity markets in search of undervalued stocks, by assessing over 2500 companies on a quantitative basis on their growth, risk and valuation properties. Out of this vast universe, a portfolio of at least 50 companies is constructed, based on their chances of outperforming their peers in the months following their selection. The Fund always aims for a well-balanced diversification of its equity holdings over different sectors and regions (developed as well as emerging), without however subjecting to formal limits, apart from the investment restrictions contained above and in the main part of the Prospectus.

Investments may be redeemed every business day (every weekday of the month on which banks are open for business in Luxembourg). Subscription and redemption requests are centralised on each of these days before 11:00 Luxembourg time. Capital gains and other income of the Fund will be capitalised. The Fund may invest up to 10% of its net assets in units or shares of UCITS. It may also use futures and other derivatives to hedge its currency and market exposure. The Fund may not be suitable for investors planning to withdraw their investment within five years. This Fund is restricted to certain categories of investors, which are approved by the Board of Vector.

Risk and Reward profile

1	2	3	4	5	6	7
---	---	---	----------	---	---	---

The risk and reward category was calculated using historical performance data and it may not be a reliable indicator of the Fund's future risk profile.

The risk and reward category shown is not guaranteed to remain unchanged and the categorisation may shift over time.

The lowest category does not mean a risk-free investment.

The fund is placed in category 4 as a majority of its net assets are permanently exposed to international equity markets.

Any investment in transferable securities is subject to usual risks. They can arise from rises and falls in stock markets prices, and from exchange rate variations related to international investments.

The prices of equities and fixed income securities may fall below their acquisition cost as a consequence of general developments in capital markets, or following changes in a specific issuer's situation.

The investor should be aware that he may not recover as much money as he has invested. The fund's capital is not guaranteed. The risk level does not reflect the potential impact of unusual market conditions or unforeseen events that may increase risk.

For more information on risks, please refer to the prospectus of the fund.

Charges

One-off charges taken before or after you invest

Entry charge	0.00 %
--------------	--------

Exit charge	0.00 %
-------------	--------

This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.

Charges taken from the fund over a year

Ongoing charges	1.88%
-----------------	-------

Charges taken from the fund under certain specific conditions

Performance fee

20 % of the outperformance achieved versus 60% of the MSCI World All Countries NR Index in Euro - 0.5% per annum and 40% of the Euro Over Night Index Average (EONIA) in Euro.

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

In case of switch from this share class into another share class of this sub-fund or of another sub-fund, no conversion fee will be charged. Ongoing charges are based on the expenses for the last financial year ended 31 December 2019. The reduction in fees – from 24/09/2019 onwards - have been incorporated pro rata in the ongoing charges shown. The UCITS' annual report for each financial year will include detail on the exact charges made. They may vary from year to year and do not include performance fees or transaction costs (except in the case of entry/exit charges paid by the UCITS when buying or selling units of another collective investment vehicle).

The performance fee charged during the last financial year (31/12/2019) is 0.00%. Please note that for the majority of the year it was calculated against a different performance fee benchmark than the one currently used. For more information on fees, charges and performance fee calculation methods, please refer to the prospectus at www.vector.lu.

Past Performance

Please be aware that performance in the past is not a reliable indicator of future results. Performance may vary over time. Ongoing fund charges are included in the calculation of past performance. The entry fees are excluded from the calculation of past performance. Past performances have been calculated in EUR. Vector Flexible F came into existence in Jan 2014. The benchmark index of the fund was changed on 24/09/2019 from a composite (75% MSCI ACWI + 25% EONIA) to a combination consisting of 60% MSCI World All Countries NR Index and 40% EONIA. The indices are net return versions and take into account the reinvestment of revenues.

Practical Information

The depositary of the fund is RBC Investor Services Bank S.A.

More detailed information on Vector can be obtained anytime free of charge, in English, from Vector Asset Management S.A., 370 Route de Longwy, L-1940 Luxembourg, such as the prospectus, the annual and semi-annual reports.
